To: LEE, Un Cheol 4th Floor, Kyoung Sung Bldg., 641 Yeoksam-dong Gangnam-WRITTEN OPINION OF THE LY INTERNATIONAL SEARCHING SUTHO gu Seoul 135-080 Republic of Korea (PCT Rule 43bis.1) Date of mailing (day/month/year) 21 FEBRUARY 2005 (21.02.2005) Applicant's or agent's file reference FOR FURTHER ACTION PP-E0058 See paragraph 2 below International application No. International filing date (day/month/year) Priority date(day/month/year) PCT/KR2004/002673 19 OCTOBER 2004 (19.10.2004) 24 OCTOBER 2003 (24.10.2003) International Patent Classification (IPC) or both national classification and IPC IPC7 H04B 1/40 Applicant -

KJ HEALTH CARE CO., LTD. et al

1.	This	opinion contain	s indications relating to the following items:
	$\boxtimes$	Box No. I	Basis of the opinion
		Box No. II	Priority
		Box No. III	Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
		Box No. IV	Lack of unity of invention
	$\boxtimes$	Box No. V	Reasoned statement under Rule 43bis. I(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
		Box No. VI	Certain documents cited
		Box No. VII	Certain defects in the international application
		Box No. VIII	Certain observations on the international application
		THER ACTIO	N national preliminary examination is made, this opinion will be considered to be a written opinion of the
			nary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority

other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later. For further options, see Form PCT/ISA/220.

3. For further details, see notes to Form PCT/ISA/220.

## WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/KR2004/002673

Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

. Statement		
Novelty (N)	Claims 1 - 12	YES
	Claims	NO NO
Inventive step (IS)	Claims	YES
	Claims 1 - 12	NO
Industrial applicability (IA	Claims 1 - 12	YES
	Claims	NO

#### 2. Citations and explanations:

Reference is made to the following documents:

D1: JP 15-57244, A (NIPRO CORP) 26 FEBRUARY 2003 D2: KR 2002-32508 A(COSMOGENOME INC) 03 MAY 2002

### 1. Novelty(PCT Article 33(2))

Neither D1 nor D2 discloses technical components regarding a insulin pump for use in conjunction with mobile communication terminal capable of measuring a blood glucose level and network system for transmitting control information for the insulin pump.

Therefore, claims 1-12 meet the criteria set out in PCT Article 33(2).

#### 2. Inventive Step(PCT Article 33(3))

Claims 1-12 of the present invention relate to an insulin pump for use in conjunction with a mobile communication terminal capable of measuring blood glucose levels and a network system for transmitting control information for the insulin pump, in which information on the measured blood glucose level is provided to a medical server through the mobile communication terminal, information on the amounts of insulin is received from the medical server, and the insulin pump is controlled based on the information on the amounts of insulin to be injected. Thus, the device is not only for improving the convenience of use of the insulin pump but also for performing the supply of precise amounts of insulin

On the other hand, D1 discloses a recording medium capable of measuring blood sugar and used for a system for utilizing the recording medium mounted on a portable terminal device as a blood sugar measuring device, connecting the portable terminal device and a server for managing blood sugar information received from the portable terminal device to a network, and to provide bi-directional service between them.

And D2 also discloses a patch type infusion pump adjustable at a remote distance by using a wireless communication method which is provided to achieve an ultra light pump by eliminating the installation of manipulating switches or display elements, and to enable a user to monitor and to deal with the abnormal condition of the pump at the remote distance via a network.

Therefore, claims 1-12 do not meet the criteria set out in PCT Article 33(3).

#### 3) Industrial Applicability (PCT Article 33(4))

Claims 1-12 meet the criteria set out in PCT Article 33(4) because the subject matter of said claims is industrially applicable.
